

OS Logistics Resell Services

Once you have your inventory placed into any of OS Logistics Warehouses, we can now connect you to your choice of various resellers as follows:

Products and Prices:

- You choose which products to make available
- Your chosen products and all their attributes and sku photos are then added to our Product Database - along with any other info such as installation instructions, warranties, maintenance instructions.
- You then choose what prices (per reseller) you want to sell them for and you then contract with the resellers, via a marketing agreement, to meet your conditions of sale and payment terms
- Then, we live link from our database back to your inventory quantity counts in the OS Logistics warehouses and connect all this to the resellers for use in their systems.

Resell Opportunities that we can connect you with include:

1.) *For your ongoing Running Line Products options include:*

- Distribution
- Dealers
- Big Box
- Concept Chains
- Internet Resellers

2.) *For your Clearance Items:*

- Distribution
- Their Dealers
- Liquidators
- Internet Resellers

Please contact OS Logistics and we would be pleased to review all your options utilizing the various Resell Services we can connect you with.
